

Teens are faced with thousands of choices every day.
We believe in the rights teens have to
make educated choices about their health needs.

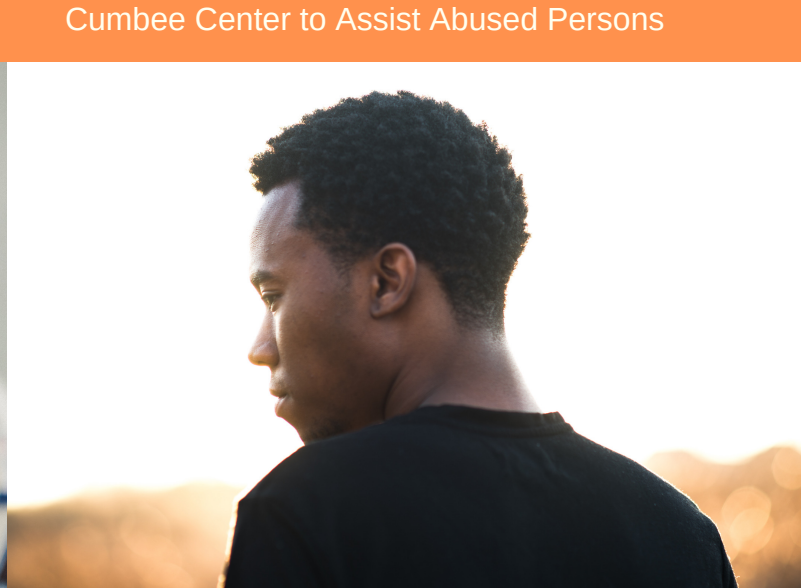

Making choices about where to go for help can be very overwhelming for teens that are not sure what their options are and what they need. Teens will be more likely to seek out a place where they feel comfortable, are able to talk to providers who truly listen to them, and where they leave feeling more confident about their choices than when they walked in the door.

This resource guide was created to give teens a one-stop-shop to teen-friendly services in Aiken County. Listed in this guide are a growing-number of local resources and what services they offer to teens and their families.
